

LODGE LORE

Loyal Order of Moose

Every member of the L. O. O. M. in the city of Phoenix today has at least two special reasons for being particularly proud of his membership in the L. O. O. M. of the world and of his good fortune in being a member of 708 in particular. Dame Fortune is embracing every one of us locally in more ways than one. First of all, the wanderer has returned—surest thing you know—annual Mac drive in yesterday morning, and that alone spells harmony and advancement. Some way or another during his absence we have been in a kind of demoralized condition—just like a chicken with its head cut off, but we are all O. K. now. Everything is serene and smiling at headquarters, the boys are wearing the smile that won't come off and have no fear of what the future will bring forth.

Then again for the second time in the few short years of our existence we are able represented at the annual Supreme Lodge convention. Matters of vital importance, affecting each and every one of us will be on the tapis at this meeting.

Several important amendments, affecting the very vitals of the supreme constitution, will be proposed at this time. Practically every subordinate lodge in the world will have some capable man on hand to look after its interests.

708 has indeed grown and prospered since the last convention. The eyes of the supreme quorum have been upon us, and it is indeed well that we are thus represented. This will prove to be a wonderful day for not only Mooseedom, but for the world at large; for today a representative body of men, from all corners of the world, are gathered together at Mooseheart, which is at one and the same time the pride of Mooseedom and the grandest institution ever perpetuated by any fraternal organization. To the remotest corners of the earth will be carried the wonderful story of Mooseheart, and beautiful indeed will be the harvest thereof.

And what is Mooseheart, and what the pleasing sounds we hear? The beauty of Mooseheart is not all external. More beautiful are its thoughts than its thoroughfares. Its sweetness far surpasses its splendid shrubbery. More to be admired for its kindness than its kind. Mooseheart is lifting babyhood, boyhood and girlhood in a safe and sure way. Mooseheart needs no apology. It is no idle dream—no foolish conjecture, but an actual living reality. Something which has been carefully and deliberately planned, skilfully conceived by men who are ranked as among the foremost of our land.

The world has seen many different ages. The age of chivalry, the age of war, strife and bloodshed. The

age of great religious awakenings, but today we live in the age of "doing things," and the Loyal Order of Moose is in the front. In Mooseheart the order is delivering the goods in a manner which no other fraternal order has even attempted. Mooseheart and the Legion deserves the close study and the earnest support of every member of the Loyal Order of Moose for more than one reason. In the first place, it appeals to us because it is a gigantic plan. It is for the whole world. The Moose members in far-off Australia, in the lonely regions of Africa, in the remote South Sea Islands, are not only interested in Mooseheart, but contribute to it equally as we do. They are partners in Mooseheart just as fully as we are, and they are entitled to its benefits, its educational facilities and its broad and comprehensive help.

Mooseheart is world wide and the Legion will be. You all know what the Legion is, do you not? Well, if you don't, I will tell you. It is simply a body of the better element of manhood, regardless of whether or not they are members of the order, who are banded together in a common brotherhood, whose aims and purposes are the promulgation of the wondrous principles of Mooseheart and who contribute according to their means for its support.

"Mooseheart" is powerful because it has the support of more than a half million of men. It is permanent and designed for continual work. It is no vision of a band of theoretical philanthropists, but a fixed plan, scientifically arranged, and destined to live as long as the waters run. It is founded on the surest foundation of all—the love and brotherhood of man.

Mooseheart is not planned for the glory of a few, but for the good of all. It will succeed, prosper and flourish because it was in response to a demand, because it was needed. It came first in response to the cry of the helpless orphan who are already sheltered within its hospitable walls. Brothers, if we are true men we cannot shirk our responsibility. There are men, it is true, who will not even support or care for their own children.

They should not be called men, for they have lost their manhood. They have fallen lower than the animal kingdom. They are men who selfishly care for their own, and care not what becomes of others. They admit that some one must do so, but they care not who does. But the Loyal Order of Moose proposes that no Moose orphan or widow shall be left to the mercies of any cold-hearted men of this class. It will look after them. It provides not only a home for the Moose orphan, but comfortable clothing, and an ample supply of healthy food, but will also equip them with a first class practical education. It teaches the hands as well as the mind, so that when the child leaves Mooseheart it will be ready for the great battle of life, prepared not only to earn his own living, but to help in making the world better, realizing its duty to help others at all times.

Glowing words at a lodge meeting will not hasten the consummation of this glorious work. It needs your active support. It is a grand and noble work and you can assist in it. If you have not already joined the Moose Legion, do so at once. Join it because of your love for humanity. Join because you are willing to help others who need your help. It will not be but a very short time until Brother Hayt will again be within the local fold, and I am sure he will have a wonderful story to unfold to us. He will have something to tell us that will make us better men and better Mothers and I am sure that there will be none who will regret his having been sent, unless it be some who always have their doors and windows open to welcome Trouble, and can seldom be found when the old man Opportunity comes around.

Last Tuesday night there were several on hand to take the initiatory work, and good old 708 is just that much stronger and better equipped. On next Tuesday the work will again be put on, and your Dictator desires your attendance—do not disappoint him. Do not align yourself with the regulars at carstone meetings and then be conspicuous by your absence at the rap of the gavel. Be a live wire and not a skim-milk product. The order needs your active, not passive, support. If you are in arrears for dues, run an ad in one of the daily papers and perchance some kind friend will acquaint you with the secretary's address. Fraternally yours,

VAN.

Fraternal Brotherhood

Last night was open night and a big night at the Fraternal Brotherhood. By open night is meant the night the members invite their friends to participate in their social doings. The lodge is very much elated over the good attendance every Saturday night, considering the hot weather and the many outside attractions, which goes to show the social features of the T. F. B. are the right kind. Saturday, the 18th, was the night of installation of officers for the ensuing term.

The official family of Maricopa lodge No. 43 is: Clifford Maddox, past president; Carl J. Way, president; Ellen Kalgaard, vice president; D. R. Lindstrom, secretary; Lily E. White, treasurer; A. S. Hanson, chaplain; Ed. Doherty, sergeant; Bessie Way, mistress at arms; Arthur Wilson, inner door keeper; Anna Doherty, outer door keeper. The lodge is to be congratulated in getting such efficient officers, and with the assistance and good will of the members great progress is assured.

Phoenix Hive No. 15

Phoenix Hive No. 15, Ladies of the Macabees, met in regular review

HUNT FOR TREASURE THIS AFTERNOON RIVERSIDE PARK

642 pieces of treasure, including gold, silver, nickle and copper Coins, Bathing, Gate and Dance Tickets, and a season's Ticket to the Park and Pool are

HIDDEN ON THE BEACH

Get a Bathing Suit and go after it—KEEP ALL YOU FIND—and the FINDING IS EASY.

THERE IS NO FAKE ABOUT THIS

JUST DIG AND YOU'LL GET IT

NO EXTRA ADMISSION

Wednesday, July 22, with the presiding officer, Lady Stephens, in the chair. All officers answered to roll call except Muscigan Lady Morgan. We are indeed glad to say we have as a new member now Lady Funk, who is a talented musician, and we will not be without music any more in our regular musician's absence.

At our next regular meeting, which will be August 12, we will have the largest class of candidates to initiate into the Phoenix. We will not disappoint any visiting Macabees who wish to see the class put on, as we do not specify class initiation and then have two in the class. Our work is complete. All officers are well qualified and know their charges. The guard team is well drilled and efficient in their work. If you want to see the work put on in a manner of impressiveness, come and see us. No bungling. We know our obligation and can repeat it. The lodge has a lady of high intelligence and one who is a master hand at governing people, especially "those who come to try to make things unpleasant." Long live Lady Stephens and may she be spared to us a long time.

As our next meeting will be in three weeks, and owing to the amount of business on hand, our commander will call a special meeting before then. The date of such will be announced later.

On the evening of July 22 we held social at Lady Hill's. After the social amusements of different kinds we were invited to the tables which were spread under the trees amid beautiful decorations and prettily colored electric lights. After the delicious refreshments consisting of ice cream, cherry sherbet, a variety of cakes and fruit punch were served to us, we departed for our homes at a late hour, more than satisfied with our hostess' hospitality, and wishing she would invite us back again. We wish to make this announcement publicly for the benefit of all and especially to the Tempe Hive, to whom the letter signed by Mrs. McCurdy was sent to their respected record keeper.

There is no Lady Macabees, nor has any been known in Phoenix by that name. We can, however, prove the anonymous writer of such and expect to do so. No woman worthy the name of Macabees would ever have wrote that letter. We know also we can get the nearly cooperation of Maricopa No. 4 to prove they want no member who would stoop to such an act, and would lend their help to clear it up. We can put our hand on the writer. We wish to publicly thank the Loyal Order of Moose for their invitation and assurance

of our kindly feeling and wishes of success for them.

RECORD KEEPER No. 15.

Modern Woodmen

The Modern Woodmen of America will hold their mid-summer smelter next Wednesday evening at 8 p. m. Refreshments will be served. There will be a discussion of the proceedings of the head camp held at Toledo, Ohio, June 15-20. It is hoped that this will settle the rate question talk. There will be no raise in rates for three years at least and this point settled means a wonderful growth in membership during the next few years. All members should come and get the new pass word.

Royal Neighbors

Pioneer Camp No. 348 R. N. of A. met in regular session Wednesday evening, July 15. At this meeting the resignation of C. E. Beck as recorder was read and accepted and Mary Seidel was elected to fill the vacancy. On account of the hot weather the camp decided not to hold any more meetings until the fourth Wednesday in August. Assessment No. 7 has been levied for July which can be paid to the new recorder at No. 1419 South First avenue. Phone 8293.

Imp. Order of Red Men

Maricopa Tribe No. 19 held their regular session at the Teepee (K. of P. hall) which although lightly attended lacked not any of the characteristic enthusiasm of this order and business was attended to with a vim and energy that argues well for the present administration. We were through by 9:20 and it is the desire of Sachem Earl Ullon that the members attend promptly at 7:30 to enable the business to be transacted and members enabled to reach home at a reasonable time the order is to be on time as the gavel will drop as soon as a quorum is present. We learn through Brother Fitzsimmons of some of the stunts being employed by Zuni tribe of Prescott which make them an active factor in the work and we expect to profit by the information which is to be given us in detail at the next meeting. We enjoyed the presence of three visiting members who by their able responses under good of the order showed themselves to be of the right calibre. J. O. Shigley of West Tribe No. 170, Logansport, Ind., is temporarily in the city taking advantage of our beautiful climate to assist his return to health and strength.

Brother Chas. Smith is a member in robust health and activity, a mem-

ber of Tribe No. 104, West Terre Haute, Ind., and anxious for an opportunity to test his strength and ability to give a good account of himself in any vocation where hard work and industrious habits are the essentials. As we would like to keep him here all brothers who may know of any employment for him are requested to call on C. of R. Phely, phone 2985, so that he may be put next.

Brother S. L. Blanton is an old timer in the order, a member of several great councils and is expecting to be with us permanently and we anticipate having him on our list shortly.

A social committee was appointed to act in conjunction with a like committee from the Pochontas; which means that there will be something doing shortly which we understand is calculated to be on the picnic order at Riverside park.

Maricopa Hive No. 4

The ladies of the Macabees held their regular review Thursday afternoon at two thirty with Lady Commander May Mitzier in the chair and all stations filled. A social hour was spent before the hive was called to order and we seem to have attained very good results by this method. There was one name acted upon and the short form conferred on two members. We pride ourselves on having secured a very popular musician which we were in need as we have a well drilled guard team, as our captain has worked many years with the guard work; she understands it thoroughly. There were four visitors present which we are always glad to have with us, two of these have decided to transfer. The sewing club with the members of Maricopa Hive No. 4 and visiting ladies will meet at Riverside next Friday afternoon at two o'clock. Sewing will be taken up the early part of the afternoon and later all will join in for a picnic. Those desiring to take part bring their material and lunch. There will be a committee to meet the ladies and direct them. There will not be any notices sent out this week for the sewing club as at this meeting each lady may be a guest.

Fraternal Order Eagles

To those who attended the entertainment on the 13th inst. no urging will be necessary, but for the benefit of all Eagles, local or visiting, in good standing or otherwise, let it be understood that the Arizona Aerie, F. O. E., earnestly requests your presence at the second of its series

of get-together meetings, to be held in the I. O. O. F. hall, at the corner of Washington street and First avenue, on the evening of Monday, July 27, at 8 o'clock.

The personnel of the entertainment committee will remain the same as that of the previous occasion, namely "Doc" Jones, Roy Hayes and Ed Rupert, and with these gentlemen pledged to eclipse their triumph of that time, all Eagles with a taste for levity or with gustatory ambitions, may safely assume that there will be something doing.

Prominent speakers will discourse in a post-prandial capacity and theatrical performers will be engaged to furnish the entertainment following the luncheon.

The plans and endeavors of the local Aerie looking towards lodge expansion and a greater activity have everywhere met with great enthusiasm and arrangements are now under way for the acquisition of a permanent home which will reflect credit not only to the order but to the city.

Hire a little salesman at The Republican office. A Want Ad will see more customers than you can.

EUROPE'S OLDEST POET'S HUNDRETH BIRTHDAY

Preparation to do Honor to M. Fertiault

PARIS, July 25.—The French Societe des Gens de Lettres has just celebrated the hundredth birthday of M. Francois Fertiault, its doyen and perhaps the oldest poet in Europe. A deputation from the society waited upon Mr. Fertiault at the flat in a retired quarter in Paris in which he has lived for upwards of sixty years, and presented him with a suitably inscribed medal, the design of which was reproduced from an eighteenth-century example. M. Fertiault has had a hard-working life. For nearly three-quarters of a century he held a position in a bank and devoted his evenings to literary work. In a few days he will publish a new volume of poems, in praise of his native Burgundy.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With It to Restore Color, Gloss, Thickness

Common garden sage brewed into a heavy tea with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant, remove every bit of dandruff, stop scalp itching and falling hair. Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggly and thin. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wyeth's Sage and Sulphur Hair Remedy," thus avoiding a lot of fuss.

While wispy, gray, faded hair is sad sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Agents—Advertisement.
